235 °C (Closed cup)

**Products of combustion**

These products are: carbon oxides (CO, CO<sub>2</sub>) (carbon monoxide, carbon dioxide), nitrogen oxides (NO, NO<sub>2</sub> etc.)

**Unusual fire/explosion hazards**

This material is not explosive as defined by established regulatory criteria.

**Fire-fighting media and instructions**

In case of fire, use water fog, foam, dry chemicals, or carbon dioxide. Do not use water jet.

## 6. Accidental release measures

**Personal precautions**

Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment (See Section: "Exposure controls/personal protection"). Follow all fire fighting procedures (See Section: "Fire-fighting measures").

**Environmental precautions and clean-up methods**

If emergency personnel are unavailable, contain spilled material. For small spills add absorbent (soil may be used in the absence of other suitable materials) scoop up material and place in a sealed, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal. Avoid contact of spilled material with soil and prevent runoff entering surface waterways. See Section 13 for Waste Disposal Information.

**Personal protection in case of a large spill**

Splash goggles. Full suit. Boots. Gloves. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.
