

Methylated Seed Oil

PIERCE

PRINCIPLE FUNCTIONING AGENTS

Modified vegetable oil, alkylphenol ethoxylate, polysiloxane.....100%

BY WT.

TOTAL...100%

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180

WARNING KEEP OUT OF REACH OF CHILDREN

Avoid eye and skin contact. Causes eye irritation. May cause respiratory tract irritation. May cause delayed skin damage based on animal data. When mixing or applying this product wear eye protection and chemical resistant gloves in addition to protective clothing required on the pesticide product label(s). Avoid ingestion, breathing vapors or spray mist. **NOTE:** Read and follow all label directions and cautions on all products used.

GENERAL INFORMATION

PIERCE is a unique blend of highly refined and modified spray oil and superior nonionic surfactants. **PIERCE**'s unique chemistry allows for superior wetting and absorption of those pesticides or products which labels recommend the addition of a spray adjuvant to improve coverage. The addition of **PIERCE** to a spray tank solution will improve a spray application by physically modifying the deposition and wetting characteristics of the spray solution, the result being a more uniform spray deposit. This product cannot be used for aquatic applications. The use of **PIERCE** can increase pesticidal activity where the following factors occur, but is not limited to:

1. When used in areas of the country with low relative humidity and high temperatures.
2. When target species are larger than label recommendations at time of application.

FIRST AID

If Inhaled: Remove to fresh air, treat symptomatically. Seek medical attention if irritation develops.

If Swallowed: Rinse out mouth and drink 2 glasses of water. DO NOT INDUCE VOMITING. Seek immediate medical attention.

If on Skin: Wash with soap and water. Seek medical attention if irritation persists.

If in Eyes: Immediately flush with water for 15-20 minutes. Seek medical attention.

DIRECTIONS FOR USE

Use **PIERCE** in spray mixture at a rate of 1 1/2 to 2 pints per acre. Higher rates may be required on hard to control weeds or weeds which are under stress.

NOTE: The application rates on this label are based on pesticide labels which recommend the use of a methylated seed oil or nonionic surfactant. Use the rate recommended on the pesticide label. A compatibility test is recommended prior to use.

MIXING

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water. If foaming is anticipated, the addition of an antifoaming agent should be added before pesticides, nutrients, or **PIERCE**. Add pesticides and/or fertilizers as directed by label or in the following sequence: 1) Micronutrients and fertilizers, 2) Dry flowables and dispersible granules, 3) Flowables, 4) Water soluble pesticides, 5) Emulsifiable concentrates. Continue agitation and add **PIERCE**. After the addition of **PIERCE**, reduce agitation and allow to mix for 1 to 2 minutes. Continue filling tank while under minimal agitation. **NOTE:** For optimum results, spray mixes containing **PIERCE** should be applied within 36 hours.

CONTAINER DISPOSAL

Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

DISCLAIMER OF WARRANTIES

Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. This warranty is expressly in lieu of all other warranties and representations expressed, implied, or statutory, including warranties of merchantability and fitness for a particular use. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.
